Softly filtered light with enhanced views and privacy

# Pirouette® Shades

Sheer beauty

Introducing all new Luxaflex® Pirouette® Shades - change the way you live with light. Inspired by the natural beauty of silk fabrics, Pirouette® Shades unique design softly filters and controls light with dramatic effects. And with PowerView® Motorisation you can control your shades from your smart device or remote control.

I love the light that comes into the room along with the privacy and views they offer.

# The ultimate versatility in a fabric shade

Pirouette® Shades help create your privacy with soft vanes that float on a sheer backing. This unique design puts you in control of the amount of natural light that comes in.

Transform harsh exterior light by diffusing it, spreading it evenly throughout your room, so you can maximise daylight hours and reduce your need for artificial light.

Open, contoured and flat - you can easily adjust Pirouette® Shades vane position to create your desired look. Open for maximum view-through, contoured for a gentle cascade, or flat for complete privacy and light control.
