vertical blinds offer the ultimate in shading flexibility and privacy along with modern clean lines and stunning fabrics

## window blinds of pure distinction

Vertical blinds offer you maximum flexibility and creativity. The innovative design allows the louvres to be drawn neatly back to the side to offer clear views. The louvres can also be rotated through 180 degrees allowing the user to control light levels within any room, yet maintain privacy.

The vertical fabric range is an eclectic mix of beautiful jacquard weaves and designs in contemporary colourways, exotic grass effects, organic natural hues and luxury metallic lustres, all of which will create window blinds of pure distinction.

Our vertical blind fabrics also feature special finishes which allow them to be easily maintained to keep your blinds looking great for many years to come.

energy efficient  
child safe

Louvolite® blinds are designed not only to be long lasting and look fantastic, but to be energy efficient and child safe too.

Energy saving Vertical blinds reduce solar gain during the summer months and help insulate your home, reducing the amount of heat loss through the window in winter.

We all know that as children grow their curiosity does too, which is why here at Louvolite® we make child safety our priority. All blinds are designed to be inherently child safe and we recommend wand operation for vertical blinds.
