# PowerView™ Motorisation

Smart shades that simplify your life

**Luxaflex** ®

**The Art of Window Styling**

# PowerView™ Motorisation

We did not invent light. We just created a smarter, simpler and more convenient way to control how it plays through your daily life. Welcome to PowerView™ Motorisation from Luxaflex®. Smart shades that simplify your life.

*The brilliantly designed
Pebble™ Remote is ideal
for room-centric control.*

# Modern lifestyle

With PowerView™ Motorisation the world's most beautiful window coverings are now the most intelligent. This innovative wireless system controls your Luxaflex® window coverings, allowing you to operate an individual shade or the entire home in perfect concert. All on your command.

## A brilliant evolution in
## The Art of Window Styling.

# Smart design
makes the difference.

# Key benefits

### Precise operation

PowerView™ Motorisation offers precise control for a variety of different Luxaflex® window coverings whether raising, lowering, tilting and turning.

### Flexible schedules

With the PowerView™ App, you can quickly create customised scenes that control all the shades in your home to operate together, or in any combination you desire. Then you can easily schedule those scenes to move your shades automatically, so you do not have to.

### Energy efficient

Easily link schedules to sunrise and sunset times calculated by the PowerView™ App to control solar energy throughout the seasons or wake with the sun.

### Secure

Adjust shades while you are away via the RemoteConnect feature on your smartphone or tablet and protect your homes privacy.

### Child friendly

Simple, battery-powered and cord-free operation is aesthetically pleasing and safer for children and pets.

### Diverse

With the widest array of innovative styles, colours and fabrics in the industry, your motorised window coverings are as beautiful as they are intelligent.

### Battery powered

Most PowerView™ window coverings are battery-powered, so they are easy to install, operate and maintain. The battery-pack is hidden behind the headrail so there is nothing to mark the beauty of your window coverings. Of course your PowerView™ window coverings can also be connected to the main power supply.

# Start simple

## Pebble™ Remote

Meet the PowerView™ Pebble™ Remote the stylish handheld control and the entry point for the entire PowerView™ system. With the Pebble™ Remote, or wall-mounted Surface Remote, you can quickly adjust any single powered window covering or all the shades in a specific room, totally on your command. Enter a room and, like switching on a light, your shades operate at your command with the stylish Surface Remote. Or, reach for the Pebble™ Remote and adjust your shades on the move and block the glare on the TV set, open the shades and let the light in, or lower the shades for privacy without lifting more than a finger. The Pebble™ is the perfect union of form and function, both simply elegant and elegantly simple.

## PowerView™ Pebble™ Remote features

- The brilliantly designed Pebble™ Remote is ideal for room-centric control with seven pops of colour.
- Six separate 'Group' buttons to organize different groupings of products to your preferences (buttons 1 to 6).
- An ALL button that activates all Groups at once.
- Ability to set a ♥ FAVOURITE position for each Group.
- ▲ OPEN and ▼ CLOSE buttons for raising and lowering products.
- ⟲ TILT control buttons for opening, closing, rotating vanes and slats.
- A ■ STOP button to adjust any shade to your perfect, preferred position.

# Convenience from any wall

## Wall Surface

The Surface Remote, which easily mounts to any wall, operates the same way, with all the same features, as the Pebble™ Remote from a convenient fixed location. It comes in several colour options to mix and match to your personal style.

# Set your perfect scenes

If you prefer to have rooms operate independently, or work together in total synchronisation, you can use the PowerView™ App to create distinct scenes for your daily life. Your unique collection of personalised scenes is easy to set up, operate and manage. Name them, colour code them and organise them in the way that is easiest for you and your family to use.

For example, greet the day with the arrival of the sun by opening the shades to the perfect position for your morning activities. In the evening, have the whole home gracefully close out the day and ensure your privacy. The choice is yours. Scenes can be created within individual rooms and compiled into multiple room scenes to activate a whole host of activity throughout the home with a single press.
## RemoteConnect

RemoteConnect provides the ability to activate scenes from anywhere in the world via your smart phone or tablet by creating an account with the PowerView™ App. Forget to close the shades before leaving on holiday? Log-in remotely to the PowerView™ App to set your shades in motion. RemoteConnect works through a secure Luxaflex® server to keep your home safe and protected.

# Take control

For precise individual shade control or group control, use the PowerView™ App from your smart phone or tablet to send shades to specific positions with just the swipe of a finger.

# Smart shades that simplify your life

Imagine a world where window coverings anticipate your needs and adjust themselves automatically, creating the perfect room ambience, morning, noon and night.

That is the beauty of PowerView™ Motorisation - just program PowerView™ to move your window coverings to the exact position you want and then control and schedule them using the intuitive PowerView™ App on your smartphone or tablet.

Available in an incredible range of sophisticated designs, PowerView™ Motorisation creates a whole new world of beauty and convenience. With PowerView™, your window coverings will become such an essential part of the way you live, you will wonder how you ever lived without them.

# Experience how
# Smart shades can simplify your life

## Your control

**1** **Pebble™ and Surface Remote**

At the heart of the PowerView™ Motorisation system are the easy-to-use handheld and wallmounted remotes that let you easily control and adjust a single window coverings or an entire room with the push of a button.
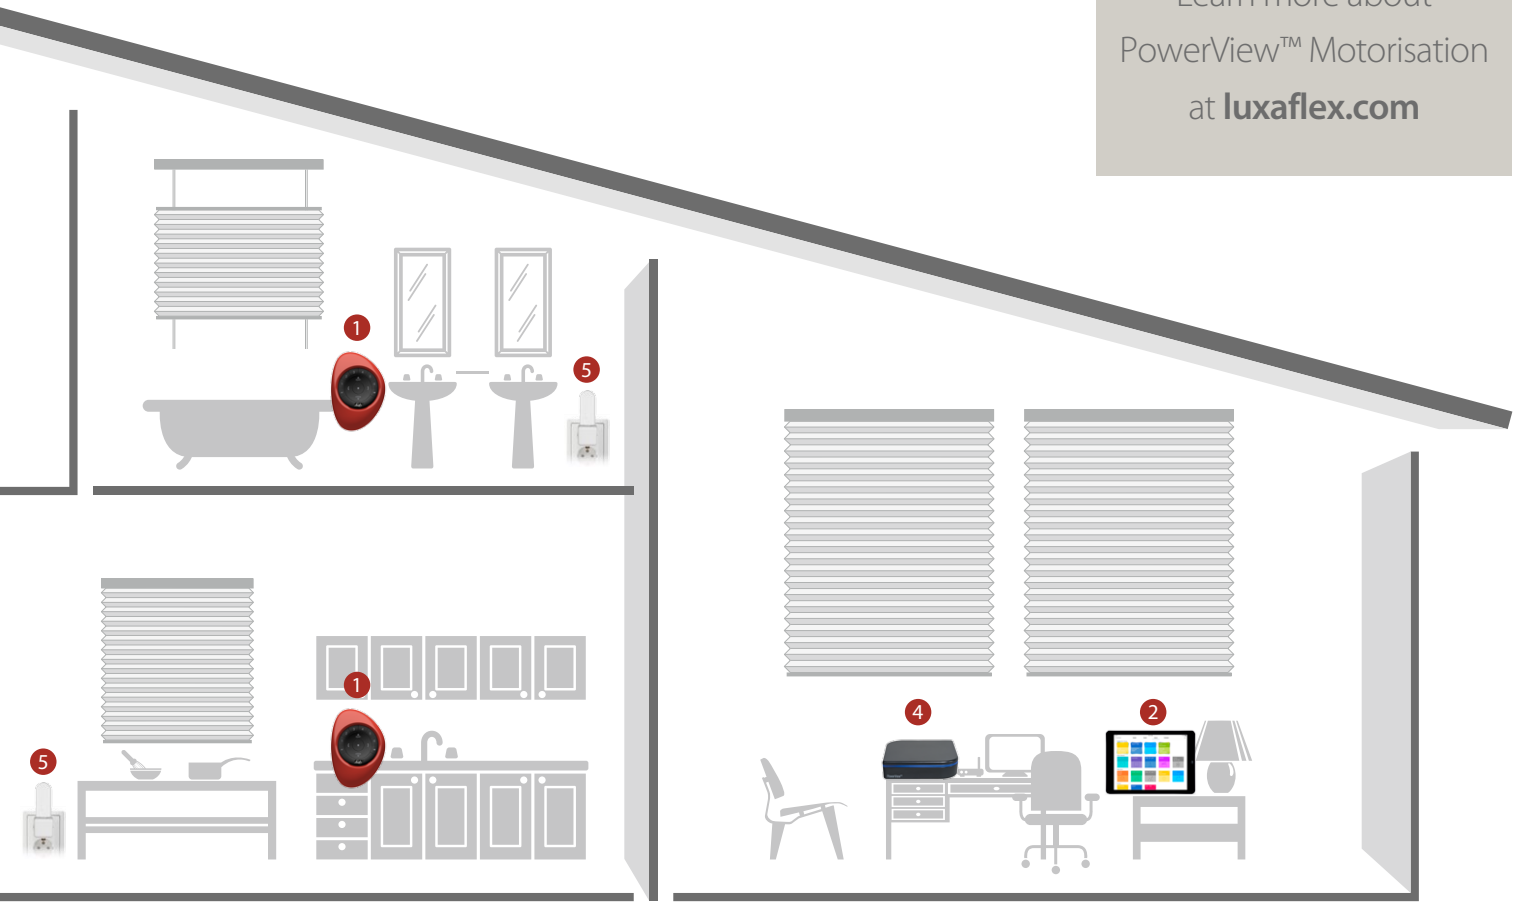

**2** **PowerView™ App**

Our innovative app allows you to use your smartphone or tablet like a remote control for individual shades, or the entire home, whether at home or away with RemoteConnect. The App requires the PowerView™ Hub for operation.

**3** **Pebble™ and Surface Scene Controller**

Working in concert with the PowerView™ Hub and App, you can activate preprogrammed scenes directly from the handheld Pebble™ or wall-mounted Surface. Quickly scroll through a list of your personalized scenes or activate using one of two FAVOURITE buttons.

## System control

### 4 PowerView™ Hub

The Hub attaches to your home's WiFi router and is the centralized brain of the entire PowerView™ system, storing the customized settings, activating schedules and providing a central point of control for all PowerView™ window coverings in your home.

### 5 PowerView™ Repeater

The Repeater is a small signal enhancer that discreetly plugs into any AC outlet in the home to extend signal range so PowerView™ can work throughout your home, regardless of its size.

*The PowerView™ Motorisation system is also designed for compatibility with most home automation system technologies on the market today, as well as Apple® iOS and Android™ tablets and mobile devices to expand the function of your wireless home.*

For truly exceptional, fully **customised** and reliable window coverings, Luxaflex® is the perfect choice.

With over 60 years' experience, Luxaflex® is committed to providing you with an **unrivalled** selection of products, fabrics, materials and colours for your **comfort** and **pleasure**. All covered by a **five-year guarantee.**
